

You will then be asked to enter a date of birth – make sure you are entering the correct date of birth for the child stated. If when you select 'Verify Now' you receive an error message, you will need to contact your school as this will be because they hold the wrong DOB information for your child.

You will then need to check through your personal details – you can change these by typing in the boxes and overwriting any information that is stored.

Create a password and enter it (twice, to ensure there's no spelling mistakes!) then click 'Complete Registration'.
