Dear Parents and Carers

RE: LATE ARRIVALS

As you are no doubt aware, the country has returned into lockdown. Whilst school will remain open, it will put additional stresses on staffing. I am therefore writing to you, to tell you that we may have to close individual classes or bubbles at very short notice. Please ensure you are regularly checking Parentmail, the school website and twitter to ensure the school is open for your child.

If we do have to close any classes, we will ensure that Google Classroom is up and running straight away. Please ensure your child can access this and inform us immediately if you are experiencing any problems. If you do not have access to the internet, please let the class teacher know and we will endeavour to provide work on paper, which may need to be collected from the school office.

Some children are still arriving late in the mornings. This compromises the safety of our bubbles, therefore, parents and carers **must** ensure that they arrive punctually for the start of school. If children are late, you **must** wait and keep socially distanced from children in other bubbles, and enter the school maintaining the same distance.

Arriving late into class is distracting for other children's learning and can be embarrassing for the child arriving. Whilst I understand being late may be unavoidable on occasion, being late to school should not be a regular occurrence.

We continue to run our morning breakfast club, from 7:30am each morning. If you are interested in a place within breakfast club, please contact the school office.

Yours faithfully

Mr M E Harris
Headteacher
